

KYOCERA TASKalfa 6003i

Outstanding 60-ppm Copier MFP

The KYOCERA TASKalfa 6003i, chosen by BLI analysts as winner of a Summer 2019 Pick for Outstanding 60-ppm Copier MFP, offers...

- Minimal downtime based on an impeccable reliability performance, plus an above average maximum paper capacity
- Tremendous value against competing models in its respective speed band
- Intuitive job programming from both the scan and copy screens, plus user-by-user panel customization
- Strong remote printing and cloud-readiness, with support for both Apple and Android-powered devices via KYOCERA Mobile Print and Google Cloud Print, as well as standard WiFi-Direct and NFC support
- Smooth integration with various productivity-enhancing, cost-saving, and security-boosting solutions through HyPAS enablement

"A true workhorse, the KYOCERA TASKalfa 6003i demonstrated outstanding reliability," said Joe Ellerman, Manager of U.S. Lab Operations at Keypoint Intelligence - Buyers Lab. "The device also ran incredibly fast overall in scan mode, where it outperformed most devices tested by Buyers Lab to date and boasted smaller-than-average scan file sizes. When you also consider the device's very good image quality, above average maximum paper capacity, and heavy paper weight support, users are getting a degree of uptime, speed, and media flexibility that truly sets the bar in its speed range."

"The KYOCERA TASKalfa 6003i proved to be a tremendous player from which medium-size to large businesses will certainly benefit," said George Mikolay, Associate Director of Copiers/Production at Keypoint Intelligence - Buyers Lab. "For the typical user, the creation of custom profiles as graphical icons through the Quick Print tab makes accessing and programming the most frequently used jobs effortless, while the easy-to-use web utility coupled with KYOCERA Fleet Services enables IT administrators to better troubleshoot and manage the devices on-network, from anywhere they see fit. Throw in an outstanding price point that, along with its overall performance, makes for a very strong value proposition—it's easy to see why the TASKalfa 6003i was an obvious choice for a 2019 Summer Pick."

About Keypoint Intelligence - Buyers Lab

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled services and unmatched depth of knowledge, we cut through the noise of data to offer clients the independent insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About Buyers Lab Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab's Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
