

Is your printing costing the earth?

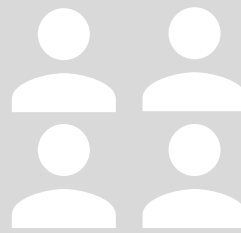

Unnecessary printing and paper usage could be costing your business – and the planet – more than you think. Save trees and money with ASL managed print services.

3%

Average company spend on paper, printing, storing and filing

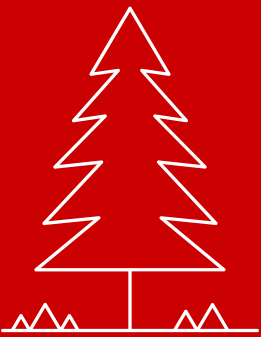

10,000

Sheets of office paper used by the average office worker per year

1

Trees cut down to produce paper for the average office worker per year

41 kilos

Carbon emissions to produce paper for the average office worker per year

ASL Managed Print Services include PaperCut – a software solution that helps track and reduce unnecessary paper usage across your business.

Up to 50%

Amount PaperCut can reduce your paper usage by

75,000,000

Sheets of paper saved to date by PaperCut users

80,000
